

Turizam za mene!

This document is called **"Tourism for Me – Accessible Tourism."**

The goal of this project is to help people with disabilities find tourist places and services that meet their needs.

We also want to encourage people who work in tourism to make their businesses more accessible for people with disabilities.

We plan to keep improving this platform.

We invite everyone working in tourism to contact us, so they can be added to our map of accessible tourist places, like in big cities in the European Union, such as Barcelona and Paris.

We created the rules for accessible tourism based on examples from the European Union.

People with disabilities and partners from our area helped make these rules.

We have also made a statement and a self-assessment form for people in tourism who want to make their services better for people with disabilities.

This tool follows rules about building accessibility for people with disabilities, like the ones used by cities and networks in the European Union.

If you want to make your business more accessible for people with disabilities, you can contact us at:

Email: dip@dip.hr or phone/WhatsApp: +385 91 5580920.

The "Tourism for Me – Accessible Tourism" platform has these main goals:

- Help people with disabilities find accessible tourist places or services in the Primorje-Gorski Kotar County and beyond.
- Encourage tourism workers to adapt their businesses for new types of guests, like tourists with disabilities.
- Promote tourism businesses that have made changes to support accessible tourism in Primorje-Gorski Kotar County and Croatia.
- Inform and motivate people with disabilities to enjoy accessible travel, vacations, and services, which is their right.

This platform was created as part of the "Tourism for Me" project.

The project ran from October 2023 to September 2024, funded by the Ministry of Tourism and Sports and other donors.

During the project, we trained people in tourism to work with guests who have disabilities.

We also informed the public about the rights of people with disabilities to have free time and travel.

Additionally, we trained people with disabilities to work in tourism and trained their mentors.

We created a tool for tourism businesses to assess themselves and receive recognition for their efforts to make tourism more accessible.

This recognition is called **"Good Host for People with Disabilities."**

The "Good Host for People with Disabilities" recognition is given to businesses that meet the requirements.

There are three levels:

- Meets basic requirements: training and signed statement about following the rules.
- Meets more than 50% of the requirements.
- Meets more than 80% of the requirements.

All materials were created during the "Tourism for Me" project.

Materials created by: DIP, project lead Marta Berčić

The "Tourism for Me" project is funded by the Ministry of Tourism and Sports.

The content of this educational material is the responsibility of the project coordinator - DIP, and the Ministry of Tourism and Sports is not responsible for its content.
